Video accompanying the original article

"Terra incognita is an imaginary virtual island that the spectator/actor, as a "Robinson Crusoë" , can explore by the means of an interactive card. This island that the shape and the relief take over the cut of the brain, shelter a reinvented flora and a fauna. This luxurious universe, imprinted of magic, invites to a journey and to dream. One discovers the artistic imaginary Miguel Chevalier, enriched by the music of Jacopo Baboni Schilingi. This immersive installation will be amplified by the bending space of Mis, that will absorb the visitor in an artificial world." (Miguel Chevalier)
